Subject: General Ordinance 9, 2016

I just learned from a neighbor about General Ordinance 9, 2016. My first question is whether all of Vigo County would be under this ordinance. I live on Gospel Grove Avenue in Terre Haute without storm sewers or water overflow control measures. Please advise if we are in the area that is to be included in the general ordinance and whether storm sewers to control overflow will be installed in areas where they do not exist. Thank you.
